

First Year Plan

The following outlines the terms and conditions of the current FirstYear plan. By purchasing this plan, you acknowledge and agree to the specific coverage and limitations defined within the terms and understand what is included and excluded.

The first year of your child's life is a time of rapid growth and change. Your infant's development needs to be tracked frequently during the first year of life while he or she is developing fastest.

We are proud to offer our First Year plan which combines all your necessary first year routine infant visits, keeps you on track with the Hungarian vaccination schedule*, a sick-child pediatric visit, as well as additional complementary tests and services.

FirstMed's First Year plan helps you keep track of your child's development.

The First Year plan includes the following on-site medical services

1 - Well Child Exams (9 clinic visits)

During the exams, your health care provider will check your child's growth and development, and administer the vaccinations appropriate to your child's age. Well child visits are scheduled as follows:

- During the first week after coming home from the hospital
- Week 2
- Month 1
- Month 2
- Month 3
